

Sköll & Hati Speakeasy

Peter Ibarra
NYSID

Baccarat

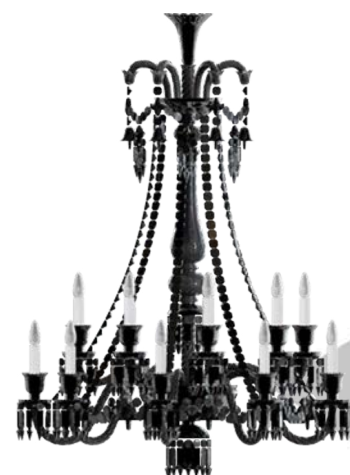

What better way to celebrate than at a speakeasy. Sköll & Hati's design concept for this project focuses on the play of brilliants in how light passes through crystal. With this in mind, I used the sun and moon in my design to showcase the radiant baccarat chandeliers. The sun motif is used in the design of the north wall bar station. The bartop reflects the sun motif and takes the form of a crescent moon. A full moon motif is placed in the center of the bar floor. Crystal stars emitting light through the north wall help create a calm ambiance. Curves are used in the architectural details and furniture to create a sense of flow in the design.

Baccarat Products Used

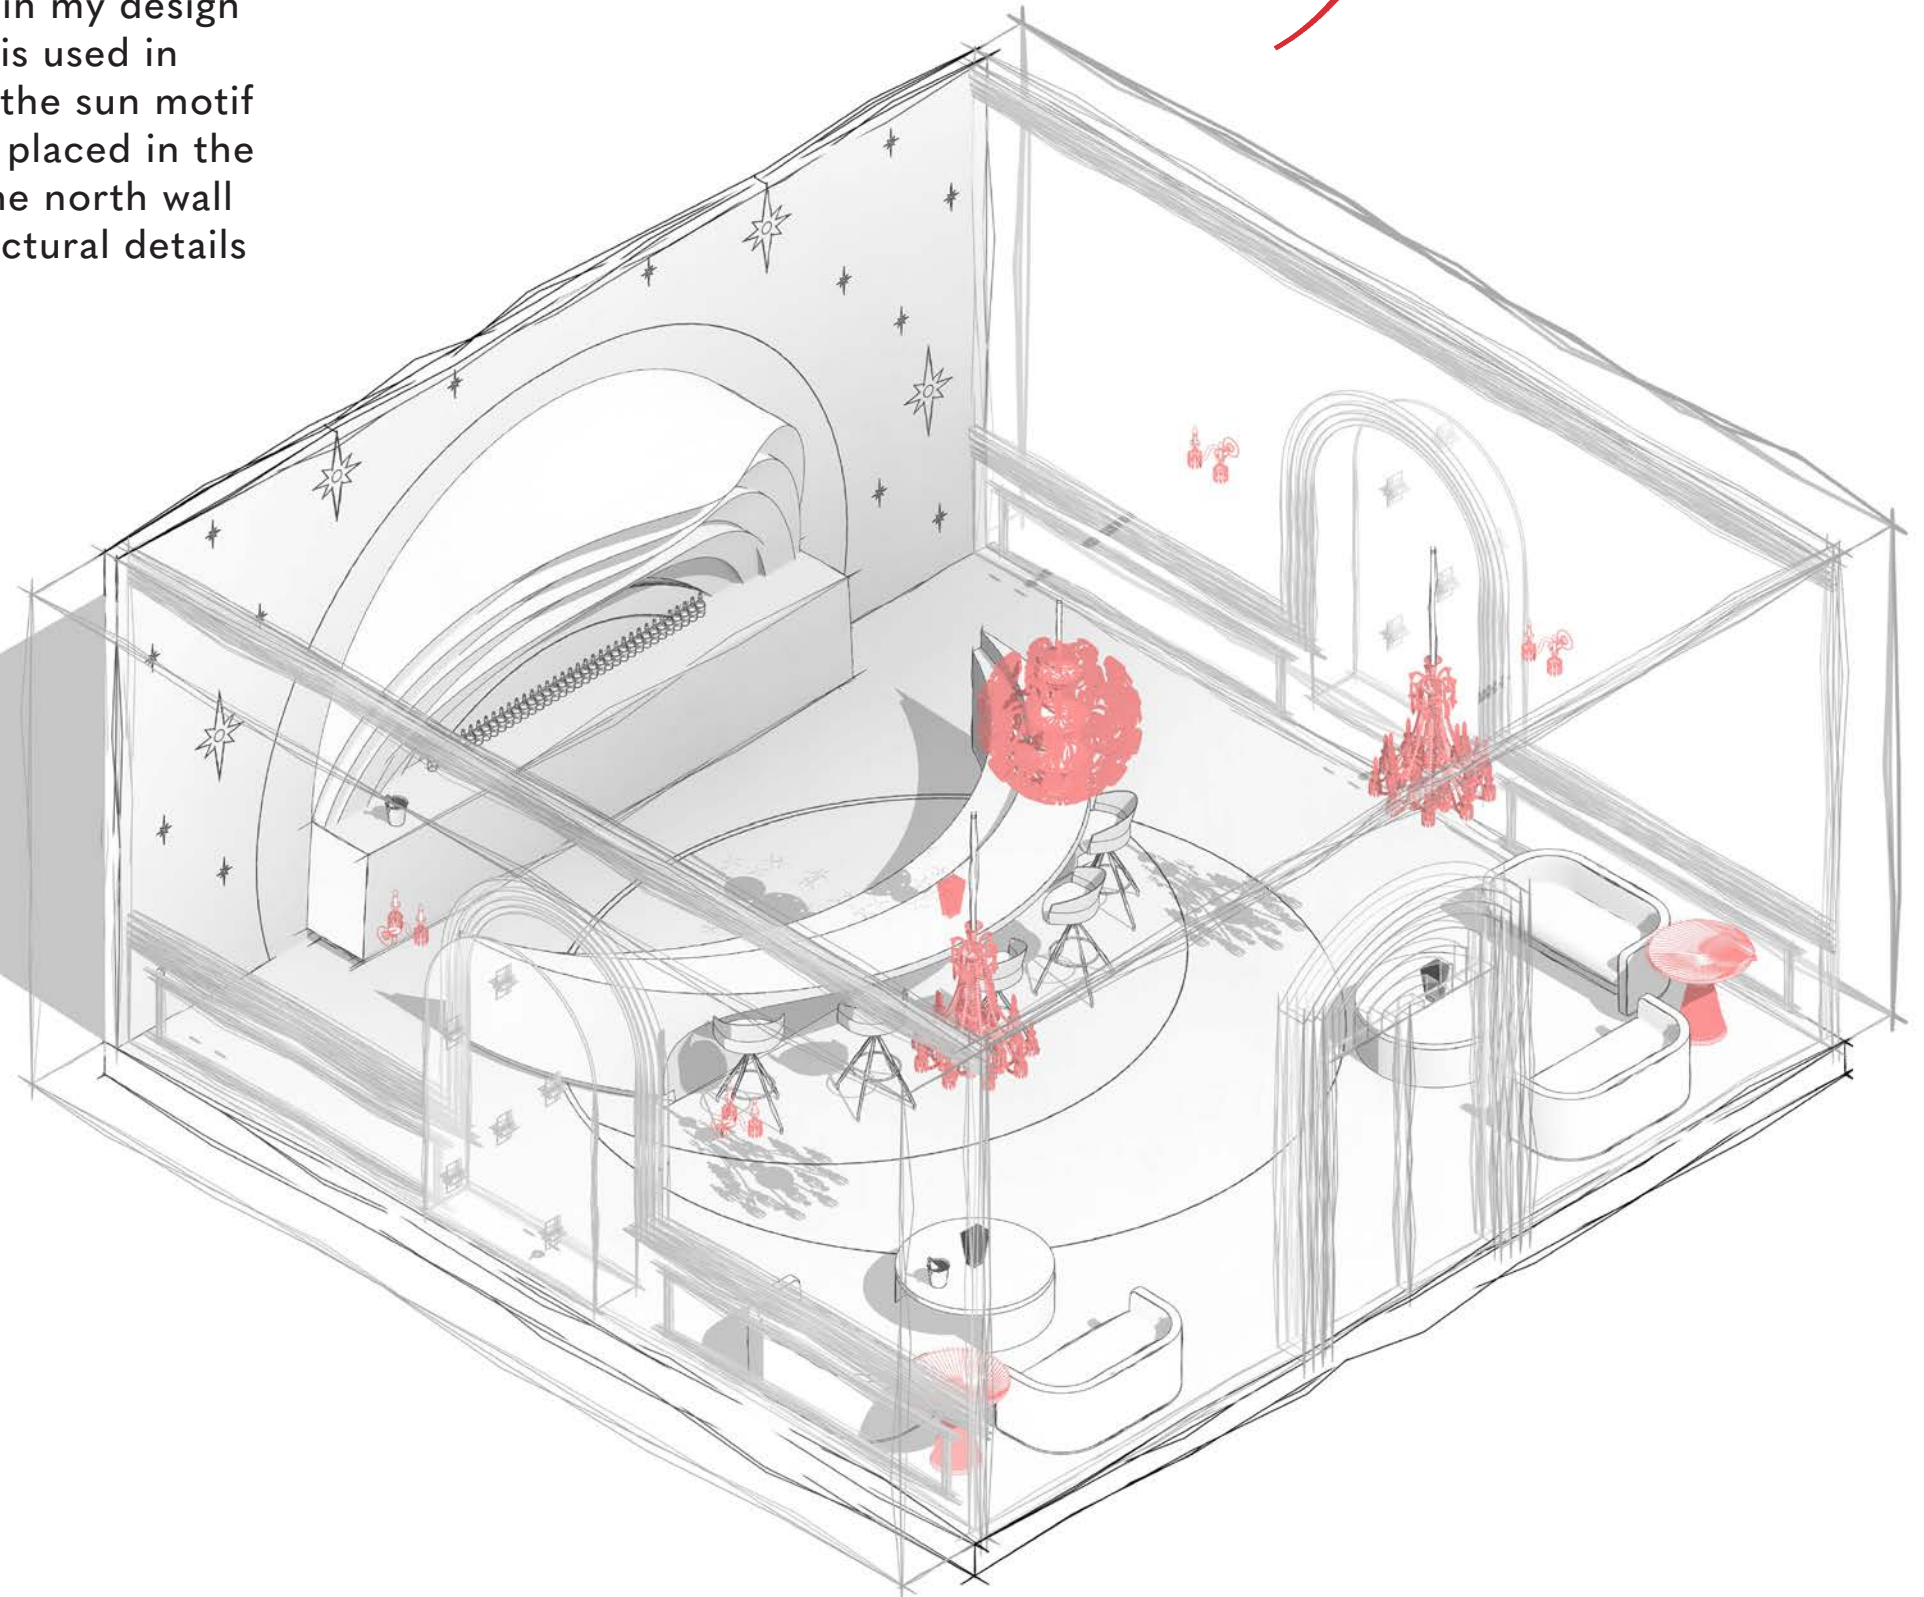

Le Roi Soleil 40L

I used this chandelier because its form is like the sun

Zénith Noir 18L Long

I used this chandelier because it will give my space contrast

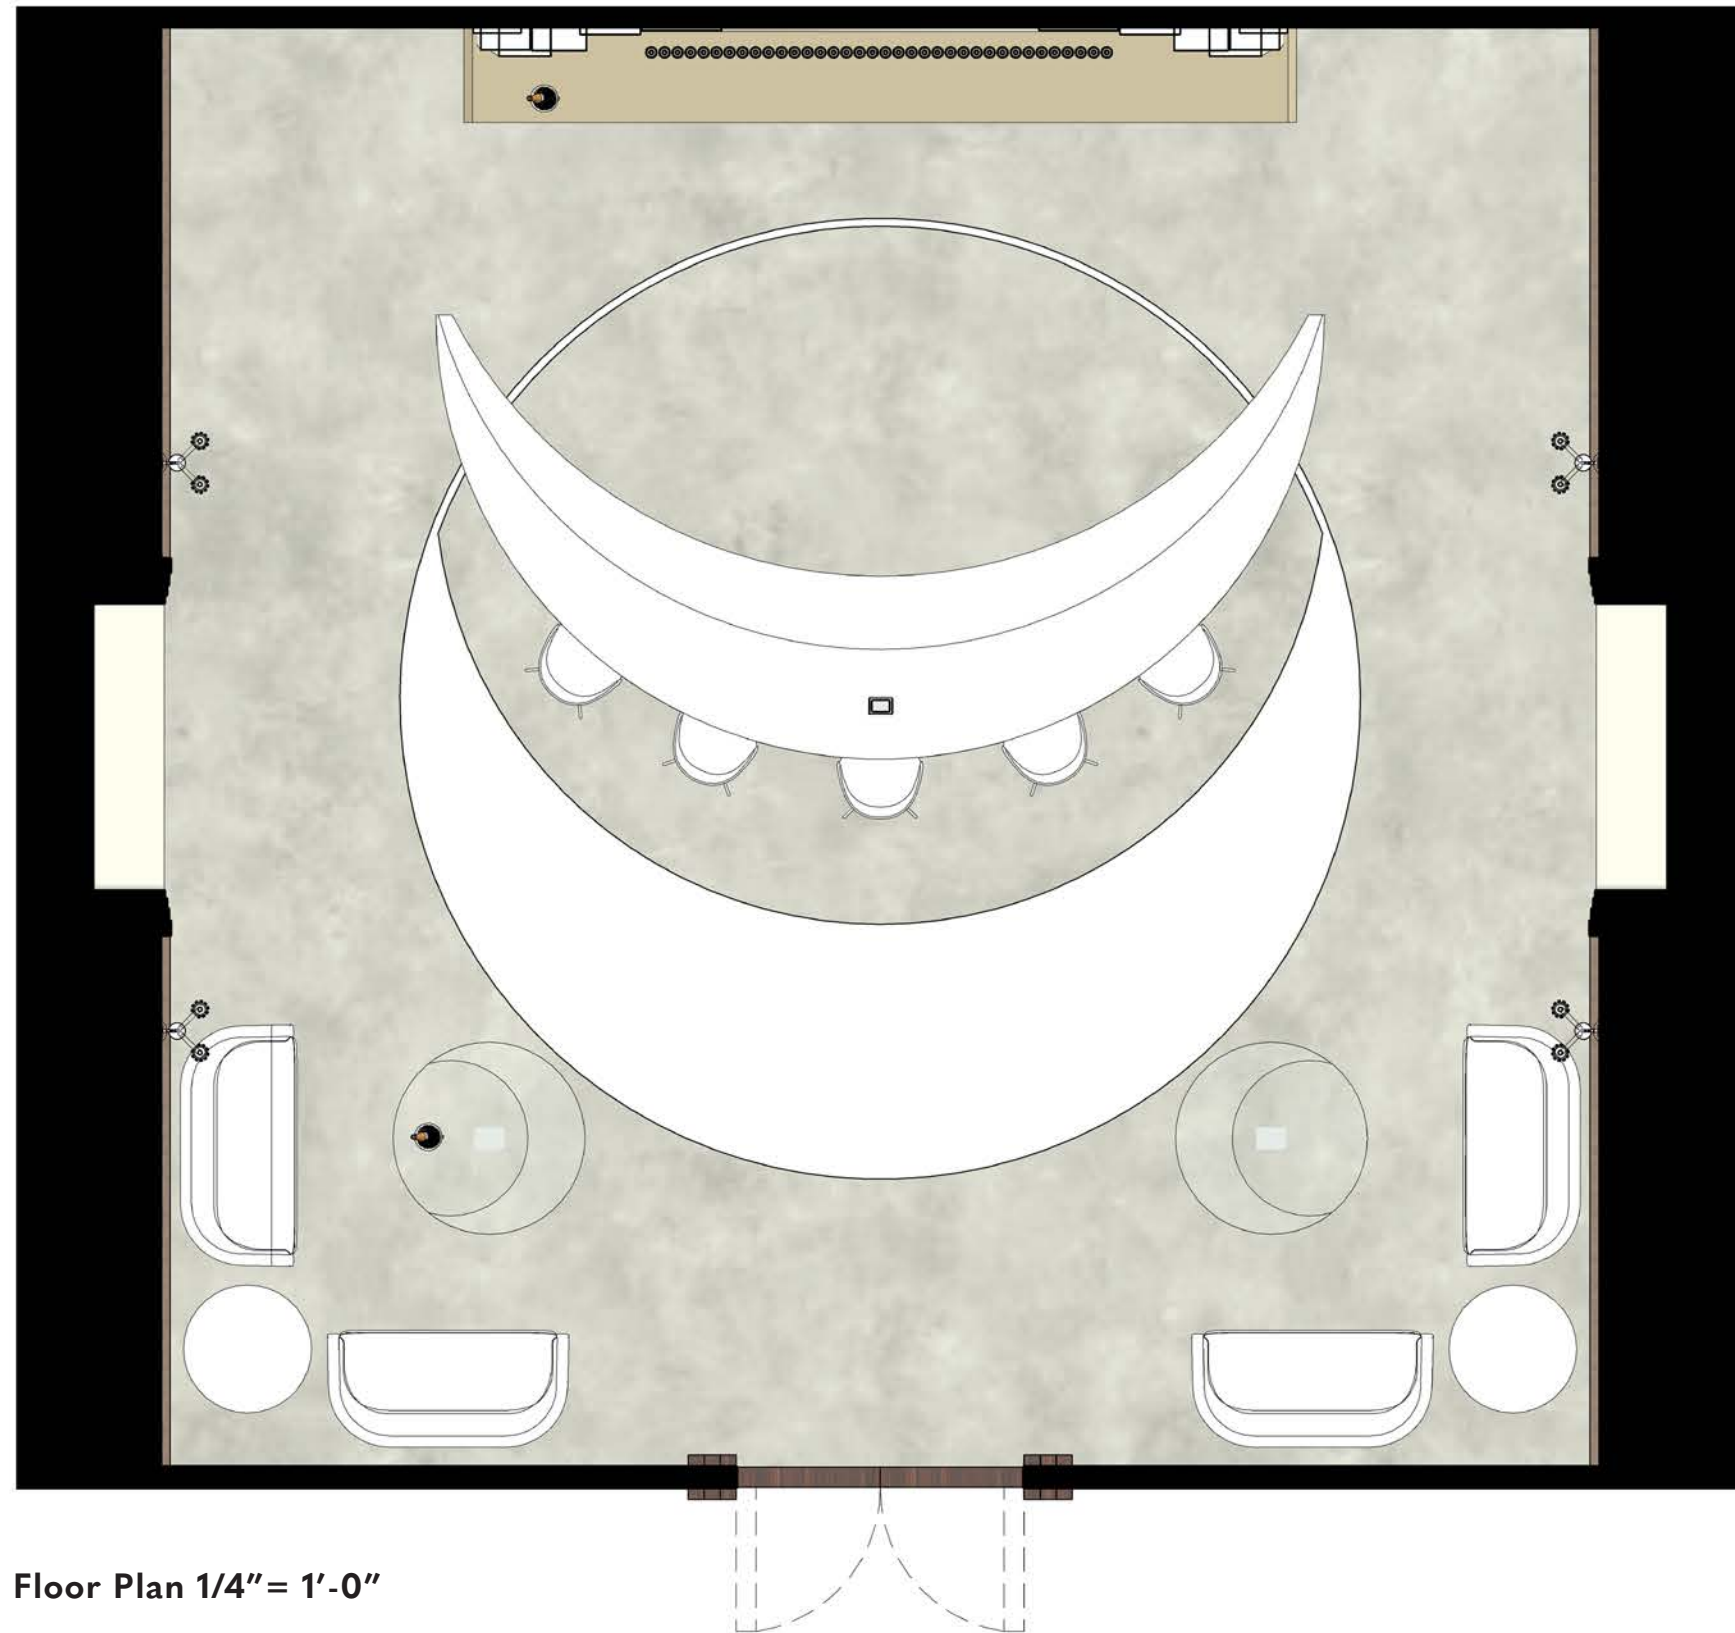

New Antique Table

Eye Rectangular Vase S

Zenith Wall Unit 2L

Floor Plan 1/4" = 1'-0"
